Heat Map for Genes in Gene Set

clus1

NON.clus1

Detailed description: This is a heat map showing the expression levels of genes in Gene Set 143 across two clusters: "clus1" and "NON.clus1". The y-axis lists the genes, and the x-axis shows the expression levels. The heat map is color-coded, with red indicating high expression and blue indicating low expression. The "clus1" column shows a high density of red, while the "NON.clus1" column shows a high density of blue.
