

Gene Set 163 : KEGG_HUNTINGTONS_DISEASE

Gene Set Null Distribution

Heat Map for Genes in Gene Set

clus1

NON.clus1

This heat map displays the expression levels of genes in the KEGG_HUNTINGTONS_DISEASE gene set across two clusters: "clus1" and "NON.clus1". The y-axis represents individual genes, and the x-axis represents the two clusters. The color scale ranges from red (high expression) to blue (low expression). The "clus1" cluster shows a higher density of red pixels, indicating higher expression levels for many genes in this cluster compared to the "NON.clus1" cluster.
