

Figure 1: A plot showing the number of genes in a cluster as a function of the gene list index. The x-axis is 'Gene List Index' (0 to 17824) and the y-axis is 'Number of genes' (0 to 17824). A blue line represents the number of genes in the cluster. A green vertical line marks the 'Zero crossing at 9077'. A blue vertical line marks the 'Peak at 15301'. The area under the curve is shaded green. The region to the left of the zero crossing is labeled 'clus1' and the region to the right is labeled 'NON.clus1'.
