

Figure 1: A plot showing the distribution of genes in the 'clus2' cluster. The x-axis is 'Gene List Index' (0 to 18197). The y-axis is 'Number of genes' (0 to 18197). A blue line shows the cumulative distribution, with a 'Zero crossing at 10533' and a 'Peak at 13237'. A green shaded area represents the 'clus2' cluster, and a red shaded area represents the 'NON.clus2' cluster. Vertical dashed lines mark the zero crossing and peak.
